

BUILD IT, FLY IT!

2-DAY RUDDER WORKSHOPS

Silver Sky Aviation, at Chandler Stellar Airport. Zodiac CH 601 XL or STOL CH 701

If you've always dreamed of building your own airplane, or simply want to learn more about all-metal aircraft construction Silver Sky Aviation can provide you with the opportunity to learn about building a Zenith kit during a "Rudder Workshop", where you actually start building your own airplane. 2-day workshops held monthly.

Small group sizes make the workshops very productive and educational.

Build your first component in just two days and for just a few hundred dollars.

See how easy and quick it is to assemble the Zodiac 601 or STOL 701 - take home the first piece of your own sport plane!

Come prepared to work and experience first-hand how you can build your own kit airplane!

You don't need any experience, skills or tools to attend.

To sign up, call Sky, 480-785-5192, Silver Sky Aviation, at Chandler Stellar Airpark.

HELD MONTHLY

For dates & times, go to www.silverskyaviation.com
